## Church Development Project

# **stop Press!**

### Prayer Update

The church hall planning application is on the agenda for the Councillor's Planning Committee meeting 6pm, this Thursday 13th March. Ward Councillor Paul Smith is speaking in support of our application. A member of the project team will also be able to present our case to the committee. Although the planning officer has recommended the scheme for approval, the Highways Authority is still raising objections. Please pray:

- For our written answers and reports to the objection to be clearly understood, including supporting letters requested to be written and submitted by early this week
- For wisdom in presenting our case to the committee verbally and for Cllr Paul Smith and others supporting the scheme
  - For approval to be given

Members of the public are permitted to attend and are requested to be at the Town Hall by 5.45
